

SHARP News

SHARP Clips Now Available

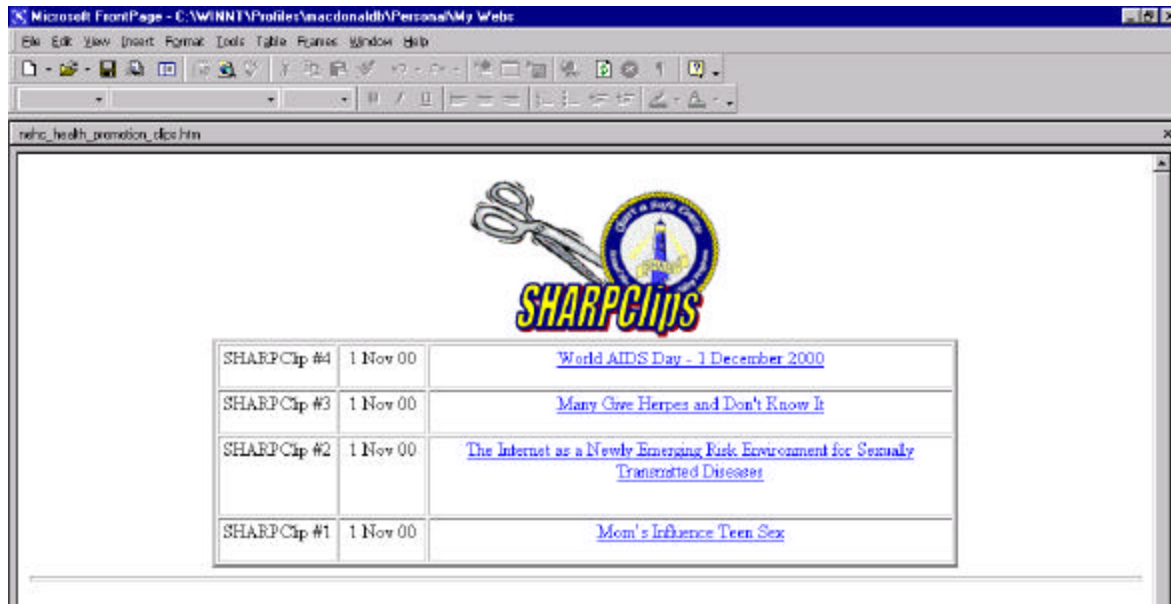

SHARP has launched a new product to support SHARP Area Coordinators, SHARP Community Leaders, SHARP Instructors, health promoters, preventive medicine professionals, and Navy and USMC leaders.

SHARP Clips are articles adapted from multiple media sources. They are intended to help local commands/communities with their HIV/STD prevention activities and health promotion programs. Use them to produce articles in local newsletters, bulletins, or other appropriate dissemination sources.

These ready-to-use media articles are available in MS Word format at the SHARP website at <http://www-nehc.med.navy.mil/hp/sharp/sharpclips.htm>, and are easily modified to adapt to your needs. The four articles are on-line now. They are:

World AIDS Day - 1 December 2000
Many Give Herpes and Don't Know It
The Internet as a Newly Emerging Risk Environment for STDs
Mom's Influence Teen Sex

Notes:

We recommend you follow local guidelines and chain of command regarding appropriate use and dissemination of articles derived from *SHARP Clips*.

The views and opinions expressed, or the mention of specific products, services, or organizations, in *SHARP Clips*, does not necessarily represent the views of, or endorsement by, the Department of the Navy.
